Programa UNITWIN y de Cátedras UNESCO

ODS 1 – Fin de la Pobreza

Establecido por la UNESCO en 1992, el Programa UNITWIN y de Cátedras UNESCO es una plataforma intersectorial que cubre todas las áreas de la organización: Educación, Cultura, Ciencias Sociales y Humanas, Ciencias Naturales y Exactas, y Comunicación e Información. El programa juega un rol clave aportando ideas, innovación, conocimiento, información y apoyo para el logro de los Objetivos de Desarrollo Sostenible (ODS).

Para destacar el 25º Aniversario del Programa, invitamos a las Redes UNITWIN y de Cátedras UNESCO a reflexionar sobre su contribución a la Agenda 2030 para el Desarrollo Sostenible y sus 17 Objetivos, y a ilustrarla con una breve información sobre sus actividades recientes y proyectos futuros más significativos.

Deseamos agradecer a los titulares de Cátedras UNESCO y Coordinadores de Redes UNITWIN que ya han respondido a nuestra invitación. Esperamos que la información, que está organizada por ODS, desencadenará el diálogo y posibles colaboraciones a nivel global.

Los autores son responsables por la elección y presentación de puntos de vista contenidos en estos documentos y por las opiniones expresadas en ellos, los cuales no necesariamente son los de la UNESCO y no comprometen a la Organización.
